

# VEHICLE SECURITY

Reduce the opportunity for thieves to steal your vehicle, by doing the following:

**LOCK your vehicle** doors and close windows.

**Park off the road** and if possible in a locked garage or behind locked gates.

**When at home** keep your keys in a safe location.

**At night, park your car** in a well-lit area.

**Install an alarm or immobiliser** and activate it.

**Secure your trailer and boat** to prevent them from being stolen.

**Remove valuables** such as purses, GPS devices, mobile phones, laptops from vehicles. If you can't remove them, conceal them before you arrive at your destination in case you are being watched.

**Remove all fishing rods, tackle boxes, esky's and GPS devices** from your boat or trailer.

**Mark with an ultraviolet (UV) pen, microdot** or by other permanent means.
