

**PIRLANGIMPI
LOCAL
EMERGENCY
PLAN
2020 / 2021**

TERRITORY EMERGENCY MANAGEMENT COUNCIL

Authority

The Pirlangimpi Plan (the Plan) approved by the Territory Controller 2013 and in accordance with section 17 of the *Emergency Management Act 2013* (NT) (the Act) has been reviewed and endorsed by the Regional Controller.

A handwritten signature in black ink, appearing to read 'Travis Wurst'.

Regional Controller
Travis Wurst

Version History

The following table lists all previous endorsed versions of this plan:

Plan	Endorsed
Pirlangimpi Local Emergency Plan 2018 - 2019	Regional Controller

Amendment List

Proposals for amendment to this plan are to be forward to:

Officer in Charge, Local Controller
Pirlangimpi Police Station
Pirlangimpi NT

Amendments promulgated are to be certified below when entered:

Revision Date	Description	Local Controller
July 2018	General template changes	D Hawkes / NTES
Aug 2018	Administrative review and formatting – entirety –	A Heath / NTFRES
Dec 2018	Administrative review and formatting – entirety –	OIC Pirlangimpi
Aug 2019	Administrative review – dates; page 20 Shelter changed to strong buildings as per shelter group information.	A Heath / NTFRES Ken Lehman / Shelter Group.
Nov 2020	Administrative review and formatting – entirety	J Richardson / NTPFES

Purpose

1. The purpose of this Plan is to describe the emergency management arrangements for Pirlangimpi District (the District) during 2020 – 2021.

Application

2. This Plan applies to the Pirlangimpi District.

Related References

3. The following references apply:
 - *Emergency Management Act 2013*
 - Territory Emergency Plan 2020/21
 - Northern Region Emergency Plan 2020/21
 - National Disaster Risk Reduction Framework (NDRRF)
 - National Disaster Risk Assessment Guidelines (NERAG).

Plan

Key Considerations

4. The *Emergency Management Act 2013* (the Act) is the legislative basis for emergency management across the Northern Territory (NT).
5. The Act reflects an all hazards approach to emergency and disaster events, natural or otherwise. It provides for the adoption of measures necessary for the protection of life and property from the effects of such events.
6. The Act defines the emergency management structures, roles and responsibilities for the NT and, in conjunction with the Territory and Regional Emergency Plan(s), form the basis for this Plan.
7. This Plan:
 - confirms appointment of a Local Emergency Controller and Local Recovery Coordinator
 - confirms establishment of the Local Emergency Committee (LEC) and Local Recovery Coordination Committee (LRCC)
 - assesses hazards most likely to affect the community
 - specifies control and coordination arrangements for mobilisation of local and, if necessary regional, Territory and national resources
 - identifies roles and responsibilities of key stakeholders

- details specific emergency response procedures for the higher risk situations.
8. This Plan complements the Territory Emergency Plan as it relates to the District. For further information on the hierarchy of plans, refer Annex A.

Locality Context

9. The District covers approximately 12,500 square kilometres and is located approximately 120 kilometres North of Darwin, forming part of the Northern Region (Region 1) as defined by the Territory Emergency Plan.
10. The District comprises four (4) major communities close to the township of Pirlangimpi, being Pickertaramoor (Tiwi College), Paru, Yapilika (Maxwell Creek) and Port Melville.
11. The District population is approximately 638 persons the main population centre being the town of Pirlangimpi.

Climate and Weather

12. The District experiences similar weather conditions to those which occur throughout the Top End of the NT. That is, there is a distinct 'Wet' (November to May) and 'Dry' (June to October) season.
13. Compared to Darwin, temperatures tend to be slightly higher during the Wet and slightly lower during the Dry.

Geography

14. The District topography ranges from sea level to a height point of approximately 120 metres.
15. The District contains a number of significant creeks and water ways including Apsley Strait, The Narrows, and Arrimu Creek. The monsoonal

rains in the wet season result in regular localised flooding of roads in the region, resulting in a heavy reliance on barges for supplies.

Sites of Conservation or Cultural Significance

16. There are many areas in the vicinity of the District boundaries into which it is culturally unacceptable to go.
17. Before exploring areas around the Pirlangimpi community it is preferable that information on those areas is explained by the local Police. Advice given should be duly noted and complied with.
18. Further information about these sites can be found [here](#).

Forestry

19. Forest products are an important part of the Tiwi Islands economy. The Tiwi Plantations Corporation Pty Ltd is the Trustee Company for the Tiwi Plantations Corporation Trust which manages the industry. Further information on this company can be found.

Tourism

20. Tourism is an economic contributor to the District, throughout the year.
21. Clear Water Fishing Lodge is situated on the outskirts of Pirlangimpi. This location allows for personal fishing adventures in the many reef, estuary, mangrove and river systems in the area.

Public Administration

NT and Local Government

22. NT Government agencies that have a presence in the District include:
 - NT Police, Fire and Emergency Services (NTPFES)
 - NT Police Force (NTPF) (Police Station)
 - Northern Territory Emergency Service (NTES)(NTSES Volunteer Unit)
 - Power and Water Corporation
 - Department of Health
 - Pirlangimpi (Garden Point) Health Centre
 - Department of Education
 - Pirlangimpi School.
23. Local government in the District is provided by the Tiwi Islands Regional Council (TIRC)

Building Codes

24. Buildings and construction in the District are subject to the [Building Act 2016 \(NT\)](#), [NT Building Regulations](#) and the [Building Code of Australia](#).

Land Use

25. The District land use is consultation between Tiwi Island Regional Council, and Traditional Owners and include infrastructure in the area of:
- Residential
 - Sewerage Ponds
 - Air Strip
 - Waste management.

Power Generation and Distribution

26. Power and Water Corporation (PAWC) are responsible for the supply of power to Pirlangimpi. Power is supplied via three (3) Caterpillar diesel generators with a diesel capacity of 102,000 litres.

Water Services

27. Power and Water Corporation (PAWC) are responsible for the supply of water to Pirlangimpi. Water is supplied via a permanent spring.

Health Infrastructure

28. The District has the capacity to provide emergency medical aid in addition to routine health treatment.
29. Serious medical cases are required to be medically evacuated to Darwin.

Emergency Service Infrastructure

30. The District has the following emergency service infrastructure:
- Police Station, cells and shed
 - Health Clinic.
 - NTES volunteer Unit.

Roads

31. There are a number of sealed roads within each township, including the road connecting Pirlangimpi Township to the barge landing; which links the Township and the Airstrip. All other roads are gravel and are relatively well maintained however they are prone to flooding and deteriorating during the Wet season.

32. Major roads within the District are as follows:

- Pirlangimpi - Pirlangimpi/Paru Road Junction
- Pirlangimpi – Paru
- Pickertaramoor - Milikapiti//Paru Road Junction
- Pickertaramoor to Conder Point.

Airports

33. The table below lists the airstrips in the District.

Name of the Strip	Datum	Details (type, length etc)	Operator of the strip
Pirlangimpi YGPT	11°23.'S 130° 25E	Direction: 040° / 220° Dimensions: 1143m x 30m Surface: Sealed Windsock: Southern end Hazard: Fenced Lighting: Nil Fuel Held: Nil	Pirlangimpi Council
Pickertaramoor YPCM	11°45.'S 130° 52E	Direction: 340° / 160° Dimensions: 1642m x 49m Surface: Compact Dirt Windsock: Yes illuminated Hazard: Animals and Birds / fenced Lighting: Yes Fuel Held: Nil	Tiwi Land Council, Tiwi college
Maxwell Creek YMXC	11°33.'S 130°35E	Direction: 030° / 210° Dimensions: 1979m x 90m Surface: Dirt Windsock: Middle Northern Hazard: Animals and Birds Lighting: Nil Fuel Held: Nil	Tiwi Plantation Corp

Port (Barge) Landings

34. The Pirlangimpi concrete barge landing is located within the community on a sealed road and is well protected by a natural bay. The port to the South East of Pirlangimpi is primarily used to export woodchip to Japan.

Telecommunication

35. Telecommunications are available across the Pirlangimpi town area via a combination of landline, mobile and satellite communications delivery. Pirlangimpi has mobile data and landline telecommunication infrastructure available via Telstra. During the wet season Communications can be intermittent. It has been known during storms in the wet season for communications to be disrupted for up to four (4) days at a time. Contact in an emergency may require radio or HF contact to the mainland.

Local Radio Stations

36. The District has two (2) local radio stations:
- 106.1FM ABC Radio
 - 98.5FM TEABBA Radio.

Vulnerable Clients

37. The Pirlangimpi Health Centre has a list of vulnerable persons. Records are kept with the Clinic Manager.
38. The Pirlangimpi Health Centre has a list of clients that require aged care. The Tiwi Islands Shire provides a number of programs that assist the elderly in conjunction with the Health Clinic.

Preparation

Disaster Hazard Analysis and Risk Register

39. The LEC has identified the following hazards for the District which require a detailed operational response procedure:
- Transport (Air and Road)
 - Cyclone
 - Bushfire.

40. These hazards have been rated against the National Disaster Risk Assessment Guidelines (NERAG) were reviewed and gave the following results:

Hazard	Overall Consequence	Overall Likelihood	Risk Rating
Transport Incident Road	Moderate	Possible	Medium
Transport incident Air	Minor	Possible	Low
Cyclone - Category 1 or 2	Minor	Likely	Medium
Cyclone Category 3	Moderate	Likely	High
Cyclone Category 4	Major	Likely	High
Cyclone category 5	Major	Likely	High
Bushfire	Minor	Likely	Medium

Transport Incident (Road and Aircraft)

41. These incidents are of an impact nature with little or no lead time. With the exception of maintaining infrastructure, no mitigation can be put in place.
42. There is a probability of aircraft incidents occurring in the vicinity of the Pirlangimpi Aerodrome. Pirlangimpi Airport is serviced by aircraft carrying up to 20 persons and averages 40 movements per month. The entire district is subject to seasonal storm activity.
43. Police and NTES Volunteers maintain a road crash rescue capability to provide first response to any major incident
44. Procedures surrounding aircraft incidents have been developed by the Australian Transport and Safety Bureau and can found [here](#) .

Tropical Cyclone

45. Tropical cyclones are low-pressure systems that form over warm tropical waters and have gale force winds (sustained winds of 63 kilometres per hours or greater, and gusts in excess of 90 kilometres per hour) near the centre.
46. Gale force winds can extend hundreds of kilometres from the cyclone centre. If sustained winds around the centre reach 118 kilometres per hour (gusts in excess 165 kilometres per hour) then the system is called a severe tropical cyclone (these equate to category 3 or above).
47. Prevention and preparative controls for tropical cyclones include, but are not limited to:
- preparation of the Local Emergency Plan and convening the LEC
 - implementation of cyclone preparation initiatives and council clean ups
 - radio, television and social media broadcasts and billboard announcements

- Police patrols.

Bushfire

48. A fire hazard includes a fire threat to the township, housing and infrastructure in the District including all the surrounding outstations.
49. Controlled burning occurs on a yearly basis in the District and the surrounding communities

Public Education

50. NTES delivers community education, awareness and prevention programs. These are also conducted or supported by Australian Government agencies such as the Bureau of Meteorology and Attorney-General's Department, as well as non-government entities like the Australian Red Cross, to ensure ongoing public awareness of emergency and disaster events. Further information is available on each organisation's respective website.

Planning

51. The Act requires Emergency Plans to be maintained at a Territory, regional and local level. Arrangements in plans aim to be flexible and scalable for all hazards. The planning process enables agreements to be reached between people and organisations in meeting communities' needs during emergencies. The plan becomes a record of the agreements made by contributing organisations to accept roles and responsibilities, provide resources and work cooperatively.
52. In accordance with section 17 of the Act, the operation and effectiveness of approved emergency plans must be reviewed at least once every 12 months.

Resource Coordination

53. A master resource register is to be maintained by the District Local Controller for rapid reference during emergency management operations – refer Annex D.
54. Stakeholders are to ensure that the District Local Controller is kept advised of changes to resource holdings, operational response capability and key personnel contact arrangements on a regular basis.

Training and Education

55. The Act requires that those involved in emergency planning and operations are be appropriately trained. The NTES Emergency Management Training Unit provides the required training and education capability to ensure NT Government and non-government entities are appropriately trained.

Exercises

56. Exercises are a key measure for testing the effectiveness of Plans and should be conducted at all levels and involve all stakeholders. Exercises ensure that Plans are robust and understood, and that capabilities and resources are adequate to implement them.
57. Exercises are conducted when a Plan has not been enacted since the last review, or substantial changes have occurred, including:
 - Legislative changes
 - Major changes have occurred in the areas of key personnel, positions or functions across prevention, preparedness, response and recovery
 - New or emerging hazards/risks have been identified.
58. Delivery of exercises is guided by advice from the Territory, Regional or Local Controllers, the Territory Recovery Coordinator, Territory Emergency Management Council or Regional Emergency Committee or as required by functional groups¹.

Response

59. Response actions are those taken in anticipation of, during, and immediately after an emergency to ensure that its effects are minimised and that people affected are given immediate relief and support².

Control and coordination

60. Arrangements for response are based on pre-agreed roles and responsibilities for stakeholders. When the scale and complexity of an event is such that resources of the community are depleted a number of arrangements are in place for assistance from the region, the Territory and/or the Australian Government. Pathway for assistance is through the Northern Controller/delegate.

Local Emergency Controller

61. In accordance with section 76 of the Act, the Territory Controller has appointed a District Local Emergency Controller (Local Controller).
62. The Local Controller is the OIC of Pirlangimpi Police Station.
63. The Local Controller is subject to the directions of the Regional Controller.
64. The powers, functions and directions the Local Controller can be found in sections 77, 78 and 79 of the Act.

¹ Section 3.5 and 3.6 of the Territory Emergency Plan.

² <https://knowledge.aidr.org.au/media/1764/handbook-9-australian-emergency-management-arrangements-kh-final.pdf>

Local Emergency Committee

65. In accordance with section 80 of the Act, the Territory Controller has established a Pirlangimpi Local Emergency Committee (LEC).
66. The Local Controller is Chair of the LEC. Remaining membership consists of representatives from NT Government and non-government entities within the District.
67. Division 11 of the Act specifies the establishment, functions, powers; membership and procedure requirements of a LEC.

Local Recovery Coordinator and Coordination Committee

68. In accordance with section 87 of the Act, if a region and/or locality has been affected by an event, the relevant Regional Recovery Coordinator may appoint a Local Recovery Coordinator.
69. The Local Recovery Coordinator will establish a local Recovery Coordination Committee drawing from membership of the LEC and other relevant members of the community as deemed necessary.
70. The Local Recovery Coordinator will report directly to the Regional Recovery Coordinator.
71. Division 12 of the Act specifies the functions, powers and directions the Local Recovery Coordinator is subject to.
72. Division 13 of the Act specifies the establishment, functions, powers; membership and procedure requirements of Recovery Coordination Committee.

Emergency Operations Centres (EOCs)

73. Local Control Centres (LCCs) will be established as required by Local Controllers to provide a central focus to the management, control and coordination of emergency operations in the District. When activated, the functions of the LCCs are:
 - information collection and dissemination
 - preparation and issue of official warnings and advice to the public
 - coordination of the provision of resources required in the locality
 - submitting requests for resources through the Regional Controller or the Territory Emergency Operations Centre where applicable
 - dissemination of information to the media and general public through the Public Information Group to ensure a single point of truth for releases of information to the wider community³.

³ Territory Emergency Plan Section 4.5.3

- 74. The District LCC is the Pirlangimpi Police Station.
- 75. The Regional EOC will be located in Darwin at the Peter McAulay Centre.
- 76. Agencies and Functional Groups may establish their own Coordination Centres to provide the focal point for the overall control and coordination of their own agency resources.
- 77. Liaison Officers from functional groups and support agencies will attend the EOC as required.

WebEOC

- 78. WebEOC is a critical information management system used throughout the NT. It is an effective and efficient tool used by stakeholders that have a role and responsibility under the Territory Emergency Plan during prevention, preparation, response and recovery phases of any event.
- 79. WebEOC is a contemporary platform for the coordination of multi-agency response to any critical incident be it a severe weather event, flood, bush fire, industrial accident, major crime, terrorism or a large scale planned event. It provides the capacity to record (in real time) all information relevant to an incident and to share that information with other persons at the scene, an EOC and Functional Group personnel.
- 80. WebEOC allows for information sharing, managing tasks and submitting situational reports. It also assists the Control Authority to manage and disseminate current decisions and objectives. Together these functionalities provide up-to-date situational awareness.

Situation Reports (SITREPs)

- 81. It is essential for effective control and coordination of emergency management operations that the Local Controller is able to gather and collate relevant information relating to the emergency from regular, concise and accurate SITREPs.
- 82. LEC members are to provide SITREPs at agreed times to enable the preparation of a consolidated report which will be distributed to all committee members and other relevant authorities. This may be achieved through the WebEOC incident management system.

Activation of the Plan

- 83. With the exception of cyclones where six stages are used, this Plan sets out five stages of activation. These stages are designed to ensure a graduated response to hazardous events, thereby reducing the possibility of under or over reaction by the emergency management agency. The stages are:

<i>Stage 1</i>	<i>Alert</i>	This stage is declared when the Local Controller receives warning of an event which, in their opinion, may necessitate an emergency management response.
----------------	--------------	--

<i>Stage 2</i>	<i>Standby</i>	This stage is declared when the Local Controller considers an emergency operation is imminent. During this stage passive emergency measures are commenced.
<i>Stage 3</i>	<i>Activation</i>	This stage is declared when active emergency measures are required.
<i>Stage 4</i>	<i>Stand-down response operations and transition to Recovery</i>	This stage is declared when the Local Controller considers that no further emergency management is necessary but if the consequences of the emergency require ongoing recovery coordination the Local Controller will advise the Local Recovery Coordinator in preparation for a transition to recovery.
<i>Stage 5</i>	<i>Recovery</i>	This stage is called if ongoing recovery operations and coordination is required.

84. The stages identified above provide for a sequential response. However, it may be necessary because of the degree of warning and speed of onset of an event for either the Regional or Local Controller to amalgamate the actions required under one stage.

85. Recovery may be activated when an incident or event has occurred that did not necessitate the activation of response stages 1 to 4. This may be in relation to a sudden impact event or slow onset event such as a drought situation.

Stakeholder Notifications

86. Upon activation of the Plan the following personnel are to be advised as a matter of urgency:

- all available members of the LEC
- Divisional Superintendent
- Regional Controller
- NTES Duty Officer.

87. The Local Controller will notify LEC members of imminent events or activations through various means including but not limited to phone, SMS and email notifications dependant on the most appropriate and available at the time.

Official Warnings and General Public Information

88. Official warnings are issued by the Bureau of Meteorology (BoM), Geoscience Australia and NTES.

89. Emergency Alert (EA) is a national telephony-based emergency warning system that can deliver warning messages to landlines and mobile

handsets based on the service address and mobile handsets based on the last known location of the device.

90. The Standard Emergency Warning Signal (SEWS) is an audio alert signal (wailing siren) which may be broadcast on public media to draw attention to the fact that an urgent safety message is about to be made. Generally, SEWS is only played before announcements concerning significant emergencies where emergency management arrangements should be activated as a result.
91. Authority to utilise the Emergency Alert and SEWS may be given by virtue of the approval of an emergency plan. The authority and delegations can be found in the Territory Emergency Plan.
92. Control and Hazard Management Authorities may have pre-planned use of SEWS for non-weather related events approved by virtue of the approval of a Regional or Special emergency plan.
93. The District will receive official warnings and general public information through the following means:
 - radio broadcast
 - television news broadcast.
94. Warning and information messages for general public are authorised by the Local/Regional Controller/delegate, as relevant. The dissemination of such warnings and information is to be by whatever means are appropriate and available at the time.

Australasian Inter-Service Incident Management System (AIIMS)

95. Australasian Inter-Service Incident Management System (AIIMS) and is a robust incident management system that enables the seamless integration of activities and resources of a single agency or multiple agencies when applied to the resolution of any event.

Closure of Schools

96. The decision to close schools due to an impending threat will be made by the Chief Minister on advice from the Territory Emergency Management Council (TEMC). When the nature of an event demands an immediate response, local authorities will take the appropriate steps to ensure the safety to the public. This action may include the temporary closure of a school to begin preparations, pending formal closure of the school by the Chief Minister for the remainder of the event.
97. The decision to reopen schools will be made by the Chief Minister on advice from the Chief Executive, Department of Education.

Closure of Government Offices

98. The decision to close government offices due to an impending threat will be made by the Chief Minister on advice from the TEMC. When the nature

of an event demands an immediate response, local authorities should take all appropriate steps to ensure public safety and the protection of property.

99. The decision to reopen government offices will be made by the Chief Minister on advice from the TEMC.
100. All NT Government agencies are to have an Emergency Preparedness Plan which sets out their processes for closing down their offices once approval has been given. This should have clearly articulated employee guidelines to ensure employees know when they are authorized to leave and are required to return to work.

Emergency Shelters

101. Emergency shelters and strong buildings are structures that provide people with a place of protection and shelter during a disaster or emergency event such as a cyclone, flood, fire or tsunami.

Emergency Shelters/Strong Buildings Locations

102. Those whose normal accommodation has been assessed as cyclone safe are to be encouraged to remain in their homes to reduce the burden on emergency shelters. However once emergency shelters are opened, no person is to be refused entry. Persons with special needs, the aged, the infirm and persons under the influence of drugs or alcohol are to be assessed by the shelter management team upon entry in to the emergency shelter.
103. Pirlangimpi Strong Buildings:
 - The Pularumpi School is a strong building and has capacity up to 40 persons.
104. The responsibilities of the emergency shelter manager are:
 - the provision of those buildings designated as emergency shelters
 - the provision of personnel to staff and operate the emergency shelters at such times as they are activated
 - the maintenance of effective liaison with other stakeholders with responsibilities relating to emergency shelters, in particular the NTPF.
105. Emergency shelters are opened under the direction of the Territory or Regional Controller in consultation with the Emergency Shelter Group. The lead agency for this group is the Department of Education. Emergency shelters will not normally operate for more than 48 hours.
106. The timing of the opening of emergency shelters will be dependent upon the severity of the impending incident, the numbers to be sheltered, the time of day the incident is expected to impact and the period of time the emergency shelters are likely to be occupied.

107. The announcement that emergency shelters are open in the District will be made by radio broadcast and will include emergency shelter rules such as no pets or alcohol being permitted in shelters and that food will not be provided.
108. Responsibility for managing these buildings during emergencies is as follows:
- a) Government agencies or local councils controlling buildings designated as emergency shelters are responsible for management of the shelter. Responsibility for managing emergency shelters in non-government buildings is negotiated on a case-by-case basis by NTES in consultation with Emergency Shelter Group
 - b) Operational training for emergency shelter managers is the responsibility of the Department of Education as the lead agency for emergency shelters
 - c) Security of emergency shelters is the responsibility of NT Police

Evacuation Planning and Accommodation

109. Evacuation is a risk management strategy that can be used to mitigate the effect of an emergency or disaster on a community⁴.
110. The decision to evacuate a community, including establishing an evacuation centre, is not taken lightly as it represents significant resource and financial implications⁵.
111. Evacuation of the District will be considered as a last resort. Where an evacuation is required the TEMC, in consultation with the Local Controller and the District, will arrange emergency accommodation and transport, as necessary, through the relevant Functional Group/s.

Register. Find. Reunite Registration and Inquiry System

112. Australian Red Cross, in partnership with the Commonwealth Attorney-General's Department, has developed an improved system to help reunite families, friends and loved ones separated by an emergency. This system is called Register. Find. Reunite.
113. This system can be initiated by either the Territory or Regional Controller without the national system being activated⁶.
114. The Welfare Group maintains Register.Find.Reunite. Any activation of this system should occur in consultation with the Welfare Group in the first instance.

⁴ EM Manual 11 Evacuation Planning, page 1

⁵ Australian Emergency Management, Evacuation Planning Handbook 4 2013

⁶ Territory Emergency Plan Section 4.17

Impact Assessment

115. Immediately after a hazard has affected a community, assessment of the impact is a vital component of the situational awareness and implementation of response and recovery activities.
116. Guidelines to conduct rapid assessments in the NT, including the establishment of a dedicated Rapid Assessment Team/s (RAT) to collect data in the field have been developed. A copy is available in the WebEOC library for emergency management practitioners.
117. The Survey, Rescue and Impact Assessment Group, led by the NTPFES, is responsible for impact assessments.
118. At the local level, Local Controllers can activate the NTES to undertake impact assessments if deemed appropriate.

Recovery

119. Emergency recovery is the coordination process of supporting affected communities in the reconstruction of the physical infrastructure, restoration of the economy and of the environment, and support for the emotional and physical wellbeing of those affected.
120. Recovery is often a long term process which can be measured in months, years or even decades. For the purpose of this Plan only the early recovery phase is detailed.

Transitional Arrangements

121. The transition from response to recovery coordination represents a fundamental shift in operational aims and tempo. This shift is from the protection of life and supporting the immediate needs of the community, to establishing longer term, more sustainable support structures.
122. The transition to recovery coordination occurs at a time agreed to by the:
 - Territory Controller
 - Territory Recovery Coordinator.

After consultation with TEMC, the Regional Controller and the Regional Recovery Coordinator.

Handover Arrangements

123. Formal handover to recovery coordination will not occur until the Territory Recovery Coordinator is satisfied the following briefings have been completed:
 - the Territory Controller has briefed the TEMC and the Territory Recovery Coordinator,

- the Regional Controller has briefed the Regional Recovery Coordinator, and,
- Where there is significant changeover of personnel, the EOC planning operations and logistics sections have briefed incoming recovery planning, operations and logistics staff.

124. The Regional Recovery Coordinator will ensure all functional group leaders, agencies, support groups and other relevant stakeholders are notified of the transition to recovery well before it occurs. This notification is to include changes to relevant contact details and other pertinent information.

125. A summary of response and recovery activities can be found at Annex J.

Plan Governance

126. Part 2, Division 3 of the Act outlines the preparation, consideration, approval and review requirements for Local Emergency Plans.

Annex A: Hierarchy of Plans

Emergency management planning in the Territory is based upon a hierarchal system. It originates with the Territory Emergency Plan which provides the basis for subsequent regional, local and specific emergency management plans relating to specific threats.

- **Territory Emergency Plan.** A plan to describe the Northern Territory's approach to emergency and recovery operations, the governance and coordination arrangements and roles and responsibilities of agencies. The plan is supported by regional, local and hazard specific plans and functional group sub plans.
- **Regional Emergency Plans.** The regional emergency management structure is based upon two Police Regions. The plans provide a basis for coordinated emergency and recovery operations in the region.
- **Local Emergency Plans.** Plans developed for coordinated emergency and recovery operations in the identified locality.
- **Territory Wide Plans.** Plans are not associated with functional group operational plans but cover an all hazard/all agency/all regions approach.
- **Agency/functional group plans.** Plans developed for agencies or functional groups to deliver the functions and operations of their agency during an Emergency or disaster.
- **Australian Government Plans and Arrangements.** The Australian Government publish a range of national plans to deal with emergencies and disasters.
- **Special Emergency Plans.** Plans outlining the arrangements for the control, coordination and support response, for hazard specific emergencies and disasters such as emergency terrestrial and aquatic pest and disease incursions.

Annex B: Functional Groups - Roles and Responsibilities

Functional Group	Position and Agency
Biosecurity and Product Industry	Department of Primary Industry and Resources
Communication Technology	NTPFES
Critical Goods and Services	Department of Trade, Business and Innovation
Emergency Shelter	Department of Education
Engineering	Department of Infrastructure Planning and Logistics
Medical	Department of Health Top End Health Service
Public Health	Department of Health
Public Information	Department of the Chief Minister
Public Utilities	Power and Water Corporation
Transport	Department of Infrastructure Planning and Logistics
Survey and Rescue	NT Police
Welfare	Territory Families

Pirlangimpi

Function/Activity	Position and Organisation or Provider
Medical Services	Health Clinic
Power Supply (ESO)	Power & Water Corporation,
Food supplier	ALPA
Transportation	Tiwi Islands Council
Housing	Territory Housing

Full details on agency roles and responsibilities are detailed in the Northern Territory Emergency Plan.

Annex C: Functional Groups

Emergency Response and Recovery Functions with Identified Agencies/Organisation/Provider

During an event some of these functions may be needed at a local level.

Please consider which agency or community member might be responsible for providing this function:

Functions	Agency /Organisation/Provider responsible
Animal / Livestock Management	NT Police
Anti-looting protection	NT Police
Banking Services	ALPA ATM
Broadcasting: What radio stations provide announcements	ABC
Clearing of essential traffic routes	Tiwi Islands Council
Clearing storm water drains	Tiwi Islands Council
Clothing and Household Items	ALPA
Community Clean Up	Tiwi Islands Council
Control, coordination and management	NT Police Department of the Chief Minister
Coordination to evacuate public	NT Police
Critical Goods and Services (protect/resupply) <ul style="list-style-type: none"> • Food • Bottled Gas • Camping Equipment • Building supplies 	ALPA
Damaged public buildings: Coordination and inspections	Engineering Group Tiwi Islands Council
Disaster Victim Identification capability	NT Police
Emergency Alerts / SEWS	NT Police
Emergency Catering	ALPA
Emergency Operations Centre (EOC), including WebEOC, Recovery Coordination Centre (RCC)	NT Police (EOC) Department of the Chief Minister (RCC)
Emergency shelter - Staffing, Operations and Control	Department of Education
Evacuation centre - Staffing, Operations and Control	Department of Education
Financial Relief /Assistance	Centrelink

Functions	Agency /Organisation/Provider responsible
Payments of NDRRA (National Disaster Relief and Recovery Assistance)	Centrelink
Identification of suitable buildings for shelters	Local Emergency Committee
Interpreter Services	Aboriginal Interpreter Service
Management of Expenditure in emergencies	Department of the Chief Minister
Medical services	Health Clinic
Network communications (IT): Responders / Public Maintenance and restoration of emergency communication	Telstra
Power: Protection and restoration :	Power & Water Corporation
Public messaging during response and recovery.	Department of the Chief Minister NT Police NTES
Public/Environmental Health (EH) management <ul style="list-style-type: none"> All EH functions including water & food safety Disease Control 	Department of Health Centre for Disease Control
Rapid Impact Assessment	NT Police NTES (Darwin) co-ordinating deployment of local and external teams
Recovery Coordination	Department of the Chief Minister
Repatriation	Department of the Chief Minister
Restoration of public buildings	Tiwi Islands Council
Restoration of roads and bridges (council/territory) excluding railways	Tiwi Islands Council
Road management and traffic control including public Information on road closures	Tiwi Islands Council
Sewerage: Protection and restoration	PAWC
Survey	NT Police
Temporary accommodation (Recovery)	Department of the Chief Minister Welfare Group
Traffic Control	NT Police
Transport : Commercial and Public airport/ planes, automobiles, ferries, buses	Department of Transport
Vulnerable Groups	Department of Health
Waste management	Tiwi Islands Council

Functions	Agency /Organisation/Provider responsible
<ul style="list-style-type: none">• Collection• Disposal of Stock	
Water (including drinking water): Protection and restoration	PAWC

Where Functional Groups are identified, those agencies are responsible for ensuring that a record of resources available during an event are completed and made available to the Local Controller during an event

Annex E: Identified Risk Guideline – Transport

Introduction

This plan provides generic guidance on the response to air and road emergencies within the District which necessitate the activation of emergency management arrangements.

Initial Responses

Due to the limited emergency rescue capabilities on Melville Island initial response will be limited to the NT Police, Health Clinic, Tiwi Island Council and NTES.

Aircraft

Aircraft movements in the District include small fixed wing aircraft and rotary wing aircraft generally used for aerial mustering.

Region personnel involved with aircraft accidents are advised to obtain and read a copy of the Australian Transport Safety Bureau [Civil and Military Aircraft Accident Procedures for Police Officers and Emergency Services Personnel](#).

Motor Vehicle

Main roads within the District are maintained and have either a bitumen surface or graded dirt road. A network of four wheel drive tracks is also present throughout the NT which may create additional issues associated with remote area incidents.

Vehicular traffic ranges from cars to motorcycles, tourist coaches, caravans, road trains, and stock and fuel transporters. The vast majority of traffic accidents will be dealt with under existing day to day arrangements. Traffic accidents involving hazardous materials are covered under HAZMAT Risk Guidelines.

Initial Responses

The main goals of any rescue are to bring the most good to the greatest number and to evacuate the living as soon as possible. NT Police will assume control of the scene, move survivors who are not severely injured or trapped in the wreckage to an appropriate space and commence the task of finding and extricating the trapped, seriously injured, unconscious, or deceased.

These procedures may change if there is any threat of fire or explosion.

Reconnaissance

Once the Incident Controller has taken charge of the scene, two man reconnaissance teams should be sent, equipped with radio, clipboard, flashlight and basic medical gear, into assigned sectors of the wreckage to locate survivors.

Rescue

As information comes in from reconnaissance teams about the location and condition of survivors, rescue teams will respond.

Annex F: Identified Risk Guideline – Cyclone

CYCLONE PLAN

Introduction

Pirlangimpi is subject to tropical cyclones, previously, most notably Tropical Cyclone Ingrid in March 2005.

Pre-Season Preparation

The District Local Controller, through the LEC, must ensure the following pre-season preparations are actioned:

- liaison is established with all participating local organisations to update contact details
- in conjunction with the NTES, arrange an appropriate exercise to test existing arrangements
- revise and amend this Plan as necessary
- in consultation with the NTES, develop and implement a suitable public education program.

Cyclone Severity Categories⁷

The severity of a tropical cyclone is described in terms of categories ranging from 1 (weakest) to 5 (strongest) related to the maximum mean wind speed as shown in this table.

Note: Corresponding approximate wind gusts and central pressure are also provided as a guide. Stronger gusts may be observed over hilltops, in gullies and around structures.

Category	Maximum Mean Wind (km/h)	Typical Strongest Gust (km/h)	Central Pressure (hPa)	Typical Effects
1	63 - 88	< 125	> 985	Negligible house damage. Damage to some crops, trees and caravans. Craft may drag moorings
2	89 - 117	125 - 164	985 - 970	Minor house damage. Significant damage to signs, trees and caravans. Heavy damage to some crops. Risk of power failure. Small craft may break moorings.
3	118 - 159	165 - 224	970 - 955	Some roof and structural damage. Some caravans destroyed. Power failures likely. (e.g. <i>Winifred</i>)
4	160 - 199	225 - 279	955 - 930	Significant roofing loss and structural damage. Many caravans destroyed and blown away. Dangerous airborne debris. Widespread power failures. (e.g. <i>Tracy, Olivia</i>)
5	> 200	> 279	< 930	Extremely dangerous with widespread destruction. (e.g. <i>Vance</i>)

For Storm or Flood Assistance call 132 500</p>
	<p>At end of message run: Further advice on cyclone emergencies is available at www.securent.nt.gov.au <i>Please ensure that friends, family and neighbours have heard and understood this message, particularly new arrivals to the area.</i></p>
<p style="text-align: center;">Guidance Notes</p> <p>Expectation of Gales: Refers to the time period within which gales are <u>expected to start</u> in an area, based on forecast movement and intensity of a cyclone. For example, the statement “Gales expected in 6 – 12 hours” means that gales are expected in an area within 12 hours, but not before 6 hours.</p>	

Stages 1 through 6

The Stages within a Regional/Local Emergency Plan describe actions that will be undertaken locally to prepare or respond to requirements under their respective plans. Public Action Messages will state what we want the public to be doing.

There will be several plans activated and at different stages of activation. It is also possible that some actions may be undertaken, without a particular stage having been activated – e.g. sheltering of vulnerable persons prior to shelters opening to the public.

Activation of stages will occur based on forecast conditions/threat, current local conditions and state of preparation with local resources available.

It is entirely probable that persons sheltering will be doing so for an extended period, 12 – 18 hours or more. It is preferable people are in shelter before arrival of gales and are not released until gales have moved on and are not likely to return.

Annex G: Identified Risk Guideline – Bushfire

Introduction

Bushfires within the Pirlangimpi District will be managed by NT Police.

Initial Responses

NT Police to respond alongside the Local NT SES volunteer unit to immediately combat the fire utilising the 500L Wildfire trailer and creating fire breaks if necessary.

The first senior officer from the Hazard Management Authority will assume incident control under the AIIMS.

Incident Controller

NT Police.

Notifications

For escalated fires Local Controller to send out notification to appropriate committee members:

Communications

All fire ground radio communications will be conducted through the Police Fire and Emergency Services Radio Network, unless advised by the Local Controller.

Organisation/ Provider	Stage 1 Alert	Stage 2 Standby	Stage 3 Activation	Stage 4 Stand down	Stage 5 Recovery

Attend formal debrief Take action where required

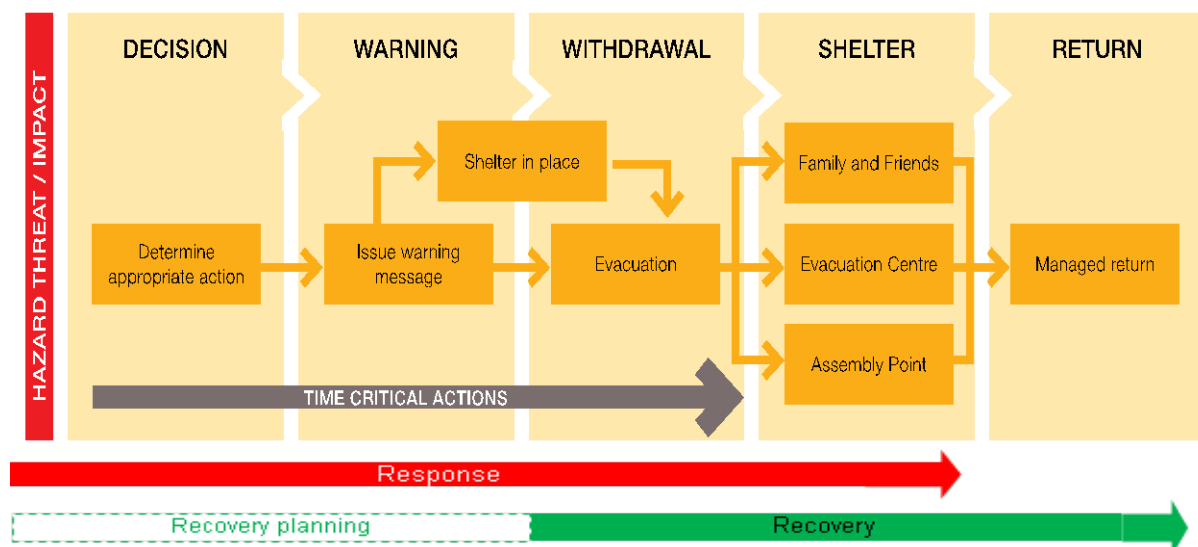

Annex H: Evacuation Guideline

Evacuation is a risk management strategy that can be used to mitigate the effects of an emergency or disaster on a community. Evacuation involves moving people to a safer location, and is usually considered to include the return of the affected community. It is recommended that when advance warning is available to notify the Territory Emergency Management Council.

Evacuation is a complex process that has five distinct steps:

1. decision
2. warning
3. withdrawal
4. shelter
5. return.

Each step is linked and must be carefully planned and carried out in order for the entire process to be successful. Given an evacuation centre will only be opened as a part an evacuation, it is vital to have an understanding of the five-step process.

Source: *Five stages of Evacuation*, Qld Government, 2011.

Emergency Shelters

An emergency shelter can generally only operate for up to **48 hours**.

Although staffed by various community service providers, an emergency shelter offers minimal support services. People accessing a shelter are expected to be self-sufficient and provide their own food and emergency supplies.

Where longer-term emergency accommodation and support is required following a disaster or event, an evacuation centre may be set up. An evacuation centre is designed to accommodate people for short to medium periods of approximately **four to six weeks**, although this figure may vary.

An evacuation centre will provide some or all of the following services:

- meals
- beds

- linen
- personal support
- medical services (or access to them)
- assistance accessing finances and recreational activities

An evacuation centre implies the provision of these services in contrast to an emergency shelter, in which people are expected to be self-sufficient.

Identified Evacuation Centres

For further information on evacuation centres / shelters management, refer to the NT Evacuation Centre Guide available on WebEOC.

Evacuation Guidelines

Stage 1 - Decision		
Authority	The Northern Region Emergency Controller will authorise the activation of the evacuation plan. This evacuation plan is to be approved by the Territory Emergency Management Council prior to activation.	Northern Regional Controller in conjunction with TEMC
Legal references	<i>Emergency Management Act</i> and approved Local Pirlangimpi Local Emergency Plan (LEP). It is recommended that the Minister declares an Emergency Situation under section 18 of the <i>Emergency Management Act</i> when this evacuation plan is activated.	
Alternative to evacuation? I.e. shelter in place, temporary accommodation on-site/nearby.	Residents will be progressively relocated within the community to the Pirlangimpi club for pre staging post a cyclone impact. Refer to the Pirlangimpi staging arrangements	Pirlangimpi Local Controller to arrange.
Summary of proposed evacuation	<p>Decision – made by the Region Emergency Controller when Pirlangimpi has sustained damage during <To be determined> that cannot support residents in situ during recovery. The Pirlangimpi Local Controller to disseminate information to the community.</p> <p>Withdrawal – four stage process;</p> <ol style="list-style-type: none"> Pirlangimpi community to the Club to be registered for evacuation to Darwin; Once registered, groups to move to the airstrip assembly area using buses/vehicles; Red Cross to register check utilising Register Find Reunite. <p>Shelter – evacuees will be encouraged to stay with friends or family. The remainder will be accommodated at an evacuation centre established in <Location to be determined>.</p> <p>Return – to be determined once recovery can sustain return to Pirlangimpi.</p>	The decision will be informed by additional advice from BOM up to that time.
Which communities/outstations or geographical area does the evacuation apply to?	Pirlangimpi Community Pickertaramoor, Taracumbi, Paru. Yapilika (Maxwell Creek), Port Melville residents, have their own evacuation plan if required	

<p>Vulnerable groups within the community</p>	<p>The Medical Group will liaise with local health staff and provide information on medically vulnerable people. The Identified people will be evacuated prior to a cyclonic impact, during the Warning phase. vulnerable people in the community could consist of:</p> <ul style="list-style-type: none"> - <i>antenatal (arranged to go to RDH)</i> - <i>dialysis patients (arrangement to go to RDH)</i> - <i>people who require walking frames (arranged to go to RDH)</i> - <i>Other older or frail aged people (also able to go to RDH).</i> 	<p>Medical Group & Transport Group to action.</p>
<p>Community demographics (approx. total number, family groups, cultural groups etc)</p>	<p>Refer to Evacuation Centre Guidelines p.21 (section 4.2) Examine the demographic breakdown of the community to be evacuated including</p> <ul style="list-style-type: none"> • The total number of people being evacuated. • An estimate of the number of people likely to require accommodation in the evacuation centre. • A breakdown of the evacuees to be accommodated by age and gender. For example, the number of family groups and single persons, adult males and females, teenage males and females, and the number of primary school-aged children, toddlers and infants. • A summary of cultural considerations, family groups, skin groups and community groups. • Potential issues that may arise as a result of these groups being accommodated in close proximity to one another. • A summary of people with health issues, including chronic diseases, illnesses and injuries. • Details of vulnerable clients (other than medically vulnerable), such as the elderly, frail and disabled (and if they are accompanied by support i.e.: family members) • Details of community workers also being evacuated who may be in a position to support the operation of the evacuation centre. Examples include teachers, nurses, health workers, shire staff, housing staff and police. 	<p>Pirlangimpi Local Controller to obtain information.</p>
<p>What is the nature of the hazard?</p>	<p>Cyclone Impact</p>	
<p>Estimated duration of the potential evacuation?</p>	<p>Approximately 10 days to 2 weeks.</p>	
<p>Triggers for the evacuation</p>	<ol style="list-style-type: none"> 1. Evacuation <i>planning</i> to commence when the Location is under a “Tropical Cyclone Watch”. 2. Implement evacuation if the Cyclone category is at severe and impact has caused major damage and disruption to all services. 3. Elderly and vulnerable people are to be considered for evacuation during the “TC Watch” due to limited health services.> <p>Further details of the intra-community relocation plan are required.</p>	<p>Northern Regional Controller & NTES to confirm triggers.</p>

Self-evacuation	Where possible residents will be encouraged to self-evacuate and make their own accommodation arrangements if they wish to do so. Individuals and families taking this option will be encouraged to register prior to leaving the community.	Pirlangimpi Local Controller
Responsibility for the coordination Stage 1	Northern Regional Controller Local Controller	

Stage 2 – Warning of Evacuation		
Who has the authority to issue warnings?	Bureau of Meteorology will issue Tropical Cyclone advice and warnings. All further public information will be approved by the Northern Regional Controller in consultation with the Public Information Group and NTES The Pirlangimpi Local Controller will coordinate the dissemination of community level information.	Northern Regional Controller to liaise with Information Group and NTES
Process for issuing evacuation warnings and other information	At community level, the Pirlangimpi Local Controller is to appoint a community spokesperson to disseminate up to date situational information at community meetings; which are to be held immediately post a convening LEC meeting, <u>at each declared stage of the Pirlangimpi LEP.</u> A media brief approved by the Local Controller at each LEC meeting, will be announced over the Local Radio station containing current situational information, relevant safety information, what to prepare, when to self-evacuate, and where to go.	Pirlangimpi Local Controller
When will warnings be issued (relative to the impact of the hazard)?	Immediately upon a decision to evacuate being made the Pirlangimpi LEC will commence coordinating residents to prepare for transport.	Pirlangimpi Local Controller
What information will the messages contain? (What do people need to know?)	To be determined: considerations - - Outline of the proposed evacuation plan - Measure to prepare residences - Safety issues; not overloading transport - Items to bring on the evacuation - Arrangements for pets and animals	Pirlangimpi Local Controller Biosecurity & Animal Welfare Group liaison
Responsibility for the coordination of stage 2	Local Controller / Regional Controller	

Stage 3 - Withdrawal		
Outline	Example: Four stage process; a. Pirlangimpi residents to Pirlangimpi Club; b. Pirlangimpi Club to Airport c. Pirlangimpi Airport to Darwin d. Darwin Airport to <location to be determined>.	
Pirlangimpi Community to the Airstrip	<u>Lead – NTES/NTPOL</u> Overview – the community will gather at the Pirlangimpi Club located approximately 300 metres from the airstrip prior to being transported by community buses to the airstrip. <ul style="list-style-type: none"> Risks/other considerations: Evacuation should be undertaken during daylight hours, if possible. Risks include inclement weather, persons with infectious diseases, vulnerable persons, and 	NTES/NTPOL

	<p>frail/elderly persons, chronically ill.</p> <ul style="list-style-type: none"> • Estimated time en-route: 5 minutes each way • Estimated timeframe overall: 2 hours utilising current resources. • Alternate transport options: Walk. 	
Assembly area	<p><u>Pirlangimpi Club</u> Pirlangimpi Club will be utilised as an assembly point where people will be transported to after pick up from homes to await registration, buses and onward transport. This will also be the point where evacuee registration will take place. Basic services should be provided i.e. drinking water, information.</p> <ul style="list-style-type: none"> • Services to be provided: Red Cross • Coordinator: Red Cross • Other details: Evacuee Registration - NTPFES College staff onsite will have log on access to the Register.Find.Reunite system via the 3G network and hard copy registration forms should there be a network failure. Residents will need to register at Pirlangimpi Club or Airport if (self-evacuating) to be permitted access to the evacuation centre at <location to be determined> 	NTES/NTPOL
Pirlangimpi to Darwin	<p><u>Lead – NTPOL</u> Lead – Transport Group Overview – Transport Group has identified commercial operators and the Police Air Section able to provide evacuation assistance. Total proposed air assets: _____.</p> <p>Commercial operators will be charging commercial rates for their services at a cost of (\$_____).</p> <p>The operation will begin at _____ hrs with the first aircraft, leaving Darwin and arriving at Pirlangimpi at _____ hrs.</p> <ul style="list-style-type: none"> • The operation will continue throughout the day until all community members are evacuated. It is estimated that all community member can be evacuated by _____ hrs (arriving in Darwin). 	NTES/NTPOL
Darwin Airport to Darwin Show Grounds	<p><u>Lead –Transport Group</u> <u>Example</u> Overview – Buses (Buslink) will be on standby at Darwin Airport from _____ am to receive passengers and continue throughout the day transferring to <location> only, as required. Transport staff will be on the ground at Darwin Airport to marshal passengers on buses only. Buses to be arranged by the Transport Group. Evacuees will be collected from Darwin Airport and transported to <location>.</p> <p>A reception team provided by NT Police will meet evacuees and facilitate transport.</p> <ul style="list-style-type: none"> • Details: to be determined • Estimated time en-route: 15 minutes • Estimated timeframe: possibly 12 hours, 	Transport Group

	<p>dependant on aircraft arrivals.</p> <ul style="list-style-type: none"> • Alternate transport options: Nil 	
End point	Location to be determined	EOC / Welfare coordination
Transport of vulnerable members of the community	Medical Group to arrange transport of vulnerable people from the community to Darwin	Medical Group
Registration and tracking	<p>Welfare Group to activate registration arrangements. Registration will be undertaken by NT Police and will occur at Pirlangimpi Club. Names of evacuees will be obtained prior to boarding buses.</p> <p>Where possible details of individuals and families self-evacuating to be obtained on arrival at the Pirlangimpi Airstrip. If persons are not registered as evacuees or self-evacuees they will not be provided access to the evacuation shelter.</p>	Welfare Group / NTPOL
Who will coordinate stage 3?	Regional Controller.	EOC coordination.

Stage 4 – Shelter		
Overview	An evacuation centre will be established at the <determined location>.	
Alternate shelter options.	Where possible evacuees will be encouraged to seek alternative accommodation with family, friends or through commercial accommodation.	
Estimated duration of the shelter phase	10 days to 2 weeks.	
Arrangements for domestic animals	No domestic animals are to accompany evacuees. Any self-evacuees with domestic animals will be expected to make their own arrangements for the animals.	Advise Animal Welfare
Roles		
• Director	DCM	DCM
• Deputy Director	DCF	Welfare Group
• Log./planning	EOC.	NTES / NTPOL
• Admin teams	EOC	DCM / Welfare Group
• Shift manager/s	To be confirmed – drawn from pool of trained DCF staff.	Welfare Group
• Welfare Team	To be confirmed	Welfare Group
• Facility Team	Selected staff will lead this and arrange any maintenance required using existing contractors.	
• Sport and Rec Team	To be confirmed	
• Medical Team	To be confirmed. It is likely St Johns volunteers will be requested. Evacuees will be referred to off-site medical services.	Medical Group
• Public Health Team	<To be confirmed>	Public Health Group
• Transport Team	<To be confirmed>	Transport Group
Evacuation centre set-up	Refer to the Evacuation Centre Template for set-up considerations	
What strategy will be put in place to close the evacuation centre?	Closure of the evacuation centre will be largely dependent on the extent of inundation and complexity of the recovery process.	

Stage 5 - Return		
Indicators or triggers that will enable a return	(refer to recovery action plan for the community) Dept. of Chief Minister	
Who is responsible for developing a plan for the return?	Recovery Coordination in conjunction with IMT.	
<ul style="list-style-type: none"> • Transportation 	To be confirmed.	
<ul style="list-style-type: none"> • Route/assembly points en-route 	Evacuees will assemble in the Rotary Hall prior to boarding buses to the airport. It is important that only individuals and families transported to Darwin as a part of the initial evacuation are allowed to board buses.	
<ul style="list-style-type: none"> • End point 	To be confirmed.	
How will information about the return be communicated to evacuees?	Communication to residents will begin the day before the repatriation. Residents will be advised at the morning meeting at the evacuation centre and by using SMS messages.	
What information needs to be conveyed to the evacuated community members?	The repatriation of evacuees will be preceded by a communication campaign aimed at the Pirlangimpi residents providing advice on when the repatriation is likely to commence and how it will operate. Community members will oversee the process to ensure non-Pirlangimpi residents do not board buses.

Annex J: Summary of Response and Recovery Activities

The following tables list a summary of possible response and recovery activities to be considered following an event.

Activities have been broken down and are listed under either response or recovery for simplicity and ease of use. In practice not all response activities will be completed during the response phase. Likewise not all recovery activities will commence after the transition to recovery.

The post event period of any event is highly dynamic produces many challenges, both foreseen and unpredicted. Response and Recovery Coordination must be flexible and able to adapt to the situation as it evolves.

This table is presented as a guide to assist emergency managers with operational decision making, planning and resource allocation. It also highlights the importance of Response and Recovery Coordination working collaboratively.

In most cases the points noted in this table and in the ensuing document are outlined in greater detail in functional group or agency plans.

Activity	Response activities	Recovery activities
1. Situational awareness	Survey and rescue teams Road clearance teams Impact assessment teams General public Media reports	<input type="checkbox"/> Continues in recovery through the use of impact assessments and Outreach
2. Public Information	Public Information Group stood up Spokes persons identified SecureNT activated	<input type="checkbox"/> Continues in recovery <input type="checkbox"/> Handover to long term recovery coordination
3. Survey and Rescue	Survey teams deploy to designated areas Critical sites surveyed Deploy rescue teams – NTFRS and TRS provide primary USAR capability	Nil
4. Road clearance	Road patrol teams deploy and check assigned routes Road clearance to priority sites Assess Stuart Hwy to Katherine (supply route)	Monitoring and completing road clearance activities
5. Emergency accommodation	Emergency accommodation and shelter - welfare assembly centres (WAC) - evacuation centres Provision of resources that will enable people to remain in their homes Emergency clothing	Evacuation centres may continue into recovery. Temporary accommodation options
6. Medical	Hospital - road clearance to the hospital - damage assessment - increase morgue capacity - divert patients from remote and regional areas - power (fuel) and water supplies Medical clinics and field hospitals - Determine the need for clinics to be opened - Assess damage to clinics	Hospital - Business continuity arrangements - Repair work Department of Health- Health Centres - Repair work - Reopen other clinics Support vulnerable people to return home. GP clinics and pharmacies - Ongoing liaison by the Medical Group CareFlight –resume normal operations St John Ambulance – resumption of core

	<ul style="list-style-type: none"> - Deploy field hospital/s <input type="checkbox"/> Medical presence in WAC <ul style="list-style-type: none"> - Supplied by the Medical Group <input type="checkbox"/> Ambulance pick up points on key, cleared roads <p>GP clinics and pharmacies</p> <ul style="list-style-type: none"> - Identify GP clinics able to open - Identify pharmacies able to open <p>Medically vulnerable people</p> <ul style="list-style-type: none"> - Support agencies to follow-up and advise the Medical Group - Vulnerable people in shelters or WAC - Support for vulnerable people at shelters <p>Care Flight</p>	business
7. Essential goods and services	<p>Establish emergency feeding and food distribution points</p> <p>Assessing the damage to suppliers and retailers of critical resources</p> <p>Assess the impact on barge operations and any effect on the ability to supply remote communities</p> <p>Implement interim banking arrangements</p>	<p>Encourage private business to reopen</p> <p>Monitor levels and availability of critical resources</p> <p>Manage logistics arrangements supplying resources to outlying communities</p> <p>Public Health inspections (food outlets)</p> <p>Banking sector business continuity arrangements</p>
	<p><u>Fuel</u></p> <p>Fuel suppliers and point of sale</p> <p>Manage fuel supplies to emergency power generation</p>	<p>Liaise with fuel suppliers, distributors and wholesalers. Monitor fuel levels</p> <p>Infrastructure repairs</p>
	<p><u>Cash</u></p> <p>Assess damage to banks and ATMs</p> <p>Implement temporary arrangements</p>	<p>Implement long term arrangements</p>
8. Evacuation	<p>Evacuations within community</p> <p>Evacuation out of community</p> <p>Registration</p>	<p>Support services for evacuees</p> <p>Recovery information for evacuees</p>
9. Public Health	<p>Communicable disease control response</p> <p>Drinking water safety standards</p> <p>Sewage and waste disposal</p> <p>Safe food distribution and advice</p> <p>Vector and vermin control</p> <p>Food and commercial premises</p>	<p>Ongoing in recovery</p>
10. Utilities	<p>Power supply</p> <p>Power generation</p> <p>Water supply</p> <p>Sewerage</p> <p>Emergency sanitation</p>	<p>Recovery of the power network</p> <p>Recovery of water and sewerage infrastructure</p>
11. Impact Assessments	<p>Training assessment teams</p> <p>Initial Impact Assessments</p>	<p>Secondary Impact Assessments</p> <p>Continued assessments through outreach</p>
12. Transport infrastructure (supply lines)	<p><u>Air (Airport/Airstrip)</u></p> <p>Clear the runway to allow air movements</p> <p>Establish a logistics hub at the airport</p> <p>Terminal damage and operational capability assessment</p>	<p><input type="checkbox"/> Monitor repairs and business continuity activities</p>
	<p><u>Road</u></p> <p>Highway and critical access roads damage assessment</p> <p>Repair work to commence immediately</p>	<p>Planning and prioritising repair work of all affected key Territory Highways (Stuart, Barkly, Victoria and Arnhem)</p>
	<p><u>Rail</u></p> <p>Ask rail operator to assess damage to the</p>	

	railway & associated infrastructure and report outage estimation	<input type="checkbox"/> Liaising with GWA and Australasia Rail to monitor repair work
	<u>Port, Harbour and Barge</u> Assess damage to Port infrastructure and harbour facilities Assess the damage to barge facilities	Repairing infrastructure Establish alternate arrangements for the supply of remote communities
13. Waste management	Waste management requirements and develop waste management plan if required	Continues in recovery
14. Repairs and reconstruction	Private housing - Impact Assessments - Temporary repairs <input type="checkbox"/> Government buildings - Damage assessment <input type="checkbox"/> Public Housing - Impact Assessments <input type="checkbox"/> Private Industry - Damage assessments	Private housing - Information and support to facilitate repairs. <input type="checkbox"/> Government buildings - Repairs and reconstruction <input type="checkbox"/> Public Housing - Long term repair plans <input type="checkbox"/> Private Industry - Repair and reconstruction <input type="checkbox"/> Temporary accommodation for a visiting construction workforce
15. Transport Services	Staged re-establishment of public transport services	Continues in recovery
16. Tele-communications	Telstra and Optus will assess the damage to their infrastructure Put in place temporary measures to enable landline and mobile services	Repair damage networks and infrastructure
17. Public safety	Police will maintain normal policing services to the community	Gradual return to core business
18. Pets	Temporary emergency arrangements for pets.	Reunite pets with their owners and cease emergency support arrangements
19. Community consultation	Information provision regarding the overall situation, response efforts, what services are available and how to access them	Community consultation process regarding long term recovery and community development

Annex L: Debrief

1. The purpose of this Annex is to provide a framework for a debrief process which complements the Whole of Government Debrief Process. The process should not be confused with training or exercise evaluations but rather considered as a lessons learned opportunity. Lessons learned leads to improved operational effectiveness, increased cost efficiency and reduced operational risk.
2. The Debrief Process embeds continuous improvement into the delivery of activities pursuant to the Territory Emergency Plan (TEP). Consistent approaches to lessons learned will encourage adaptability, and flexibility across all functional areas; sharing of knowledge and experiences will assist with ongoing continuous improvement of people and organisations.
3. Implemented judiciously, a lessons learned approach can have a positive impact on organisational culture commensurate with increasing opportunities to achieve goals. Whilst lessons learned often begins in one organisation through an internal debrief processes, those lessons learned are often transferable across multi-agencies; this Whole of Government Debrief Process and Lessons Management aims to ensure learnings are translatable across multiple organisations.
4. One of the most critical steps in the lessons management is the collection of information and observations of persons involved in the operation. The collection of this information is not limited to persons involved in the operation itself or the actions of those who provided a response, but includes those who had involvement prior to including the promulgation and implementation of plans (as lessons to be learned is not limited to how an emergency was managed but also includes the planning processes).
5. Debriefing is more than simply producing a report at the end of an operation. It forms part of the broader process of learning and has significant influential impact on an agency and sensitises people into doing the right thing. It prevents confusion and misinterpretation for future operations and drives home the main reasons the agency implores a lessons management system – to ensure that the agency learns from their mistakes and what they do well and drives continuous improvement.
6. Debriefs are not about distributing blame, but rather shifting focus towards improving capacity and capability to respond to incidents in a way that reflects improved planning, process, technology, support, training and development. The inevitability that exists with decisions made on a risk based approach carries a certain level of accepted risk and this needs to be taken into account when debriefing.
7. During any operation, anyone involved in the operation should be recording activities where there are lessons to be learned; activities can include decision making and consequential responses.
8. Where decisions are made by an Incident Management Team member or a Functional Group Leader, those decisions should be recorded in the Decision Log in the WebEOC event. Decision Logs can be referred to as part of the debrief process.
9. A Hot Debrief is held immediately after the incident response is complete or when a person concludes their shift in response to the incident. It allows rapid capture of real-time feedback aimed at addressing pressing or immediate concerns. This is a key time to address any health or safety issues and provides an opportunity for instant feedback.
10. The Hot Debrief will be fed into the Whole of Government Debrief Process and Lessons Management. For the purpose, the following template is to be used and uploaded to WebEOC.

RECORD OF DEBRIEF

Operation / event: _____

Date	
Time	
Location debrief held	
Operation background (provide succinct detail of sequence of events)	
What went well	
What could have been done better	
What opportunities are there for improvement	
Did the agency have sufficient capacity / capability	
Other related issues that contributed to the execution of the operation	
Open discussion points	
Action items arising and whom will monitor	
Are there any staff welfare concerns	
Are there staff that deserve recognition - detail of whom and why	

Annex M: Glossary

GLOSSARY

Term	In the context of this plan, this means:
All Hazards Approach	The application of one set of control, coordination and communication policies and procedures in a universal manner to emergency situations of varying type thereby promoting consistency of emergency management at all levels.
Affected area	A particular area where either an emergency situation, state of emergency or state of disaster exists.
Approved emergency plan	Means a plan approved under section 10930, 13(2), 16(2) of the Act.
Authorised Officer	Person or persons authorised under section 98 of the Act.
Chief Executive	The appointed position that leads the governance and management of a service responsible for the effective exercise of the relevant statutory powers, authorities, duties and functions consistent with the NT government policy.
Command	The authority to command is established in legislation or by agreement with agency/organisations. Command relates to agencies/organisations, functions and individuals. Situations are controlled.
Comprehensive approach	The development of emergency and disaster arrangements to embrace the aspects of prevention, preparedness, response, and recovery (PPRR). PPRR are aspects of emergency management, not sequential phases. Syn. 'disaster cycle', 'disaster phases' and 'PPRR'. Source: AEM Glossary
Control	The overall direction of activities, agencies or individuals concerned (source; SERM Act). Control operates horizontally across agencies / organisations, functions and individuals. Situations are controlled.
Controlling Authority	The authorised agency which has the overall direction of activities, agencies or individuals concerned.
Coordination	The bringing together of agencies and individuals to ensure effective emergency and rescue management but does not include the control of agencies, organisations and individuals by direction. Source: SERM Act.
Debrief	A meeting held during or at the end of an operation with the purpose of assessing the conduct or results of an operation.
Delegate	A person nominated to act as the representative of an officially appointed position holder, having the same powers and authority to commit the resources of the official employee.
Emergency	Means an event that requires significant coordinated response using the combined resources of the territory and non-government entities within the Territory.
Emergency Management Act	A Bill for an Act to provide for matters relating to emergency management and for related matters.
Emergency Situation	Exists in an area once a declaration to that effect is declared by the minister under section 3 of the Act.
Functional Group	These responsibilities are laid out in functional plans and the Territory Emergency Plan.

Group Leader	The individual allocated responsibility to prepare for, respond to and command and control a functional group in response to a specific hazard based on their legislated and or technical capability and authority.
Lead agency	An agency allocated responsibility to prepare for and respond to a specific hazard based on their legislated and/or technical capability and authority.
Hazard Management Authority	The agency allocated responsibility to prepare for and respond to a specific hazard based on their legislated and/or technical capability and authority.
Participating organisations	Agencies which provide a supporting role in preparing and responding to a specific hazard based on their legislative and/or technical capability and authority.
Preparedness	<p>Arrangements to ensure that, should an emergency occur, all those resources and services which are needed to cope with the effects can be efficiently mobilised and deployed.</p> <p>Measures to ensure that, should an emergency occur, communities, resources and services are capable of coping with the effects. <i>See also</i> comprehensive approach.</p> <p>Source: AEM Glossary.</p>
Prevention	<p>Regulatory and physical measures to ensure that Emergencies are prevented, or their effects mitigated. Measures to eliminate or reduce the incidence or severity of emergencies. <i>See also</i> comprehensive approach.</p> <p>Source: AEM Glossary.</p>
Recovery	<p>The coordinated process of supporting emergency-affected communities in reconstruction of the physical infrastructure and restoration of emotional, social, economic and physical wellbeing. <i>See</i> comprehensive approach.</p> <p>Measures which support emergency-affected individuals and communities in the reconstruction of the physical infrastructure and restoration of emotional, economic and physical well-being.</p> <p>Source: AEM Glossary.</p>
Region	Means a region specified in a Gazette notice under section 27 of the Act.
Regional Controller	For a region, means the Regional Emergency Controller for the region mention in section 54 of the Act.
Response	<p>Actions taken in anticipation of, during, and immediately after an emergency to ensure that its effects are minimised, and that people affected are given immediate relief and support.</p> <p>Measures taken in anticipation of, during and immediately after an emergency to ensure its effects are minimised. <i>See also</i> comprehensive approach.</p> <p>Source: AEM Glossary.</p>
Responsibilities	The state or fact of being responsible, answerable, or accountable for something within one's power, control, or management. (Dictionary.com)
Risk	The effect of uncertainty or objectives. (ISO Guide 73.2009 Risk management – Vocabulary)
Risk Identification	The process of finding, recognising and describing risks (ISO Guide

	73.2009 Risk management – Vocabulary).
Stand down	Transition from responding to an event back to normal core business and/or recovery operations. There is no longer a requirement to respond to the event and the threat is no longer present.
Stand up	The operational state following “lean forward:” whereby resources are mobilised, personnel are activated and operational activities commenced. Disaster coordination centers are activated.
State of Disaster	Means a state of disaster declared under section 21 of the Act.
State of Emergency	Means a state of emergency declared under section 19 of the Act.
Volunteer member	Means a member of the NTES appointed under section 52 of the Act.
Vulnerability	The conditions determined by physical, social, economic and environmental factors or processes, which increase the susceptibility of a community or persons to the impact of hazards (National Emergency Risk Assessment Guidelines).
Territory Controller	Means the Territory Emergency Controller mentioned in section 28 of the Act.
Territory Emergency Management Council	The management council is established under the terms laid out in Division 4 of the Act.
Territory Recovery Coordinator	Means the Territory Recovery Coordinator mentioned in section 32 of the Act.
WebEOC	WebEOC is a critical information management system used throughout the Northern Territory. It is used by agencies that have roles and responsibilities under the NT Emergency Management Act during prevention, preparation, response and recovery phases of any emergency.
